

SUJAL GUPTA

Aligarh, Uttar Pradesh, India | sujalgupta0008@gmail.com | +91-9058520754 | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Data Analytics student at IIT Patna skilled in Python, SQL, Power BI, Advanced Excel, Machine Learning, and Business Intelligence. Experienced in data modeling, dashboard development, KPI reporting, and predictive analytics using datasets exceeding 6.3M records. Passionate about transforming complex data into actionable business insights. Seeking Data Analyst, Business Intelligence, or Power BI Developer Internship opportunities.

CORE SKILLS

- **Languages:** Python, SQL(MySQL), C
- **Data Analysis & Machine Learning:** Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn
- **Power BI & Visualization:** Power BI Desktop, Microsoft Excel, DAX (CALCULATE, FILTER, SUMX), Power Query, Data Modeling, Star Schema, KPI Dashboards, Drill-through, Interactive Reports, Predictive Analytics, KPI Reporting, Dashboard Development.
- **SQL & Databases:** MySQL, SQL Joins, Aggregate Queries, CTEs, Window Functions, Views
- **Tools:** Git, GitHub, Jupyter Notebook
- **Analytics:** ETL, Data Cleaning, EDA, Feature Engineering, Statistical Analysis, Business Intelligence, Data Visualization

PROJECTS

Sales Analytics Dashboard [GitHub](#)

Tech Stack: Power BI, SQL (MySQL), Excel, DAX, Power Query, Data Modeling

- Built a 4-page executive Power BI dashboard using SQL, DAX, and Power Query. Designed a Star Schema, optimized data relationships, and developed scalable KPI dashboards for business reporting.
- Designed interactive business intelligence dashboards analyzing sales, profitability, regional performance, product ranking, discount impact, and period-over-period growth trends using drill-through, slicers, and dynamic filtering & visualizations.

Linkalyze — LinkedIn Job Market Analytics Dashboard [GitHub](#)

Tech Stack: Python, Power BI, Pandas, NumPy, Matplotlib, Seaborn

- Analyzed 122K+ LinkedIn job postings across 31 attributes using Python, Pandas, NumPy, and SQL-like data processing. Data cleaning, missing value treatment, feature engineering, exploratory data analysis (EDA), data profiling, and statistical analysis.
- Developed an executive Power BI dashboard with interactive KPIs, salary analysis, hiring demand trends, experience-level insights, and geographic visualizations to support workforce analytics and business intelligence.

Financial Fraud Detection & Risk Analytics [GitHub](#)

Tech Stack: Python, Power BI, Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn

- Developed an end-to-end fraud detection pipeline analyzing 6.36M+ financial transactions. Applied feature engineering, trained Logistic Regression & Random Forest models, and achieved 0.9988 ROC-AUC.
- Built an interactive Power BI dashboard tracking 8,213 fraud cases, ₹1.14T transaction value, fraud rate, behavioral patterns, and executive KPIs for fraud monitoring and risk assessment.

INDUSTRY EXPERIENCE

Tata Group — GenAI Powered Data Analytics ([Forage](#))

Jul 2026

- Leveraged GenAI for data analysis, insight generation, and analytical reporting to support business decision-making.

JPMorgan Chase & Co. — Quantitative Research ([Forage](#))

Feb 2026

- Built quantitative pricing models and performed credit risk analysis using FICO segmentation under simulated financial scenarios.

Deloitte — Data Analytics ([Forage](#))

Jan 2026

- Conducted data cleaning, EDA, visualization, and forensic analytics to generate business insights.

EDUCATION

Indian Institute of Technology, Patna

Aug 2024 – Present

B.Sc. in Computer Science and Data Analytics(Distance) | CGPA:8.8

Dr. A.P.J. Abdul Kalam Technical University

Sep 2024 – Present

Bachelor of Technology, Computer Science Engineering | CGPA:7.7

CERTIFICATIONS

- Computer Science and Data Analytics Foundation - [IIT Patna](#) | Data Analytics Bootcamp - [UDEMY](#) | Python - [UDEMY](#)

ACHIEVEMENTS

- Achieved a 4-star rating in Python on HackerRank | Ranked 22nd among 100+ participants in the HackDays Patna Hackathon
